LARGE SHIPMENT OF THOROUGHBREDS MADE

Certificates of Exportation Show 3,000 Horses Shipped from 1910 to 1915.

The figures in connection with the thoroughbred industry of the United States as revealed by The Jockey Club's records for the past five years, or during the period when racing was under restrictions which hampered it almost to the point of extinction, is interesting. The records show that 1,500 certificates were issued for males and females of various ages during that time by W. H. Rowe, the official registrar of The Jockey Club.

"These certificates do not by any means furnish an accurate estimate of the number of thoroughbreds we lost," said Mr. Rowe a few days ago, "as many consignments to England, Germany, Australia, the Argentine and other South American points went without any other papers than the foal certificates, and we are now getting communications from these countries where some of the mares have produced something good and their breeding must be confirmed. I would say that quite as many animals went without our certificates of exportation as have them, so that 3,000 would not be too high a figure to place on the total shipment of thoroughbreds from this country from 1910 to 1915 inclusive."

"Our records, however," continued Mr. Rowe, "show that the tide has turned our way strongly, the importations during 1914 from abroad totaling 150 head, while the current year to date is responsible for 406, with 70 more on the Atlantic at the present time. This will bring us well up to the 500 mark, with another month to fill out the year. A number of the horses and mares which went abroad represented the best blood lines in our studbook, and many of them we could ill afford to lose, but we are getting in exchange representatives of families that have been most successful abroad, and they should leave their impress on the thoroughbred future of the United States."

The following table will show how thoroughly these countries which are fond of racing have assimilated our thoroughbreds:

RECAPITULATIONS OF SHIPMENTS 1910-1915	Males	Females	Total
France	20	10	30
England	25	15	40
Germany	10	5	15
Austria	10	5	15

GILROY WILL BE AN OFFICIAL ON SUNDAY

Hilltop Star to Be Head Linesman at Mohawk-Southern Game.

Johnny Gilroy, the Georgetown sensation, was agreed upon last night by Manager McClure and Manager Norton of the Mohawks and Southern eleven as the third official in the big independent game for the District championship Sunday afternoon.

The feet-footed hilltop "streak" is the highest individual point scorer in the country and the local promoters made a ten strike in landing Gilroy to officiate in this contest as it will give the fans who have never watched him in action, a chance to give him the once over. Gilroy knows the football game from A. to Z. and has proven to be a capable official in the prep school games on the Hilltop this season.

Jack Heagerty and Billy McCafferty have been agreed upon as the other officials acting as referee and umpire respectively.

Both eleven are on edge for this contest. The Mohawks do not claim the independent championship but believe that they are entitled to the honors because of their victory over the Vigilantes and clean slate to date. The Southern have been going along at a great rate of speed this season, and have not been scored upon in seven games. Many local followers of the independent game who have watched both teams in action are confident that the Southern club will furnish the "Indians" plenty of opposition while a great number believe that the South-east clubmen are in for a trimming.
